

# AЕvitamin, capsules

A combination of vitamins with immune stimulating and antioxidant properties, an additional source of vitamins A and E.

Ingredients: Vitamin A, Vitamin E.

# Alpha-lipoic acid 100 mg, capsules

Maximum content of alpha-lipoic acid in 1 capsule to support metabolism. Alpha-lipoic acid plays a key role in the metabolic function, promoting the conversion of glucose into energy. As an antioxidant, it protects cells from damage by free radicals. Alpha-lipoic acid reduces blood glucose levels in people with diabetes. The product has a hepatoprotective effect, and can be used as part of a comprehensive therapy of liver diseases such as hepatitis, cirrhosis, etc. Alpha-lipoic acid is successfully used for weight loss.

Promotes:

- support of metabolism
- antioxidant protection and detoxification of the body
- slowing down the aging process
- protection of liver cells
- lowering blood sugar level
- weight control

# Ascorbic acid 100 mg

# Bilberry-Forte with Taurine

To reduce the risk of developing age-related eye diseases.

Blueberry-Forte with Taurine helps:

- improve regeneration - natural renewal of eye tissues, which provides functional support and preservation of vision
- reduce the risk of developing age-related eye diseases
- strengthening of retinal cell membranes
- improve metabolism and energy processes in the tissues of the eye

# Bilberry-Forte with vitamins and zinc

Bilberry Forte with vitamins and zinc - a complex of vitamins for vision with bilberry anthocyanins, vitamins and zinc, necessary for daily maintenance of vision, especially with increased eye strain. Biologically active substances of bilberries (anthocyanins, organic acids, carotenes, pectin substances, trace elements), acting in combination with B vitamins, vitamin C, rutin and zinc:

help to relieve eye strain and preserve vision; protect eyes from fatigue and irritation; they help to improve the adaptation of vision in the dark and strengthen the walls of blood vessels, including the vessels of the fundus; they have a positive effect on the functional state of the visual organs associated with the deficiency of vitamins and trace elements. Bilberry Anthocyanins stimulate the synthesis and natural renewal of the visual pigment rhodopsin, helping to increase visual acuity, improve adaptation to darkness and low-light conditions. This accelerates the process of natural retinal renewal and reduces eye fatigue from prolonged work.

A complex of bilberry bioflavonoids and rutin with vitamin C helps to strengthen the vascular wall, improve blood supply to the eyes and maintain normal intraocular pressure.

A complex of b vitamins is necessary for normal metabolic processes in the eye tissues. Vitamin B1 increases visual performance, while its lack causes muscle weakness, including eye tissue. When vitamin B2 is deficient, there is redness of the eyes, a burning sensation in the eyes and eyelids. If you are deficient in vitamin B6, you may experience increased eye strain and twitching.

Zinc is essential for the formation of the main visual pigment rhodopsin and for conducting light signals through the retina, so it protects the eyes from structural changes caused by bright light, UV radiation, or other types of oxidative stress. Structural changes in the retina and reduced color perception are associated with zinc deficiency in the body.

#### INGREDIENTS:

microcrystalline cellulose (carrier), zinc lactate, ascorbic acid; film coating components (food additives): hydroxypropylmethylcellulose (thickener), polyethylene glycol (Glazer), titanium dioxide, Carmine and iron oxide (dyes); rutin, bilberry extract, vegetable calcium stearate and amorphous silicon dioxide (anti-caking agents), pyridoxine hydrochloride, Riboflavin, thiamine hydrochloride

#### METHOD OF APPLICATION:

Adults and children from the age of 14 take 2 tablets 2 times a day during a meal, children from 7 to 14 years old take 3 tablets a day, children from 3 to 7 years old take 1 tablet 2 times a day. The duration of administration is 2-4 months. A 10-day break is allowed.

#### Contraindications

Individual intolerance to the components, pregnancy, breast-feeding. Consult your doctor before use.

Shelf life: 3 years

#### Ingredients

4 tablets for adults and children from the age of 14

3 tablets for children 7-14 years old

2 tablets for children 7-14 years old

# CardioActiv vitamins for heart health

For the heart's energy and youth. The product contains the universally recognized vitamins for the heart and the maximum content of coenzyme Q10 in 1 capsule, 60 mg. The vitamins contribute to the production of energy to maintain the normal heart function, and help to strengthen not only heart, but also blood vessels.

Advantageous price compared to the imported analogue.

Ingredients: Coenzyme Q10, Vitamins A6, A12, Folic Acid.

# Carnosine, capsules

Carnosine is a natural dipeptide, consisting of beta-alanine and histidine. Studies have proven that L-carnosine has an amazing ability, not just preserving the youth of the cells, but also working as a switch from aging to rejuvenation. Today, L-carnosine is considered one of the most effective among the known anti-aging ingredients. To prevent aging and rejuvenate the body, just 500 mg of carnosine per day are enough.

Carnosine is not just a rejuvenating agent; it is widely known as a unique broad spectrum super-antioxidant, the best remedy to prevent and treat heart attacks and strokes, a preventive treatment for complications of diabetes, due to the product's property of neutralizing excess glucose, as a great medicine for preventing and slowing down the development of cataracts, as a universal remedy for a wide range of mental and nervous disorders (autism, depression, schizophrenia, epilepsy), and as a medicine for prevention and therapy of gastroduodenal ulcers.

Promotes:

- slowing down aging and preserving active longevity
- better performance and physical activity
- rejuvenation from the inside
- rapid recovery after physical activity
- prevents the destruction of cells by free radicals
- improves brain and heart function, especially in old age

# Coenzyme Q10 100 mg, capsules

Maximum Coenzyme Q10 in one capsule. Coenzyme Q10 can be found in absolutely all the tissues and organs of the human body. If its quantity is reduced by 75%, it leads to cell death. Q10 works as age protector only in high doses of 100 mg or more! Coenzyme Q10 is not just for heart protection and maintaining the youth, it also:

- strengthens the heart muscle
- reduces the side effects of statins
- preserves the beauty and youth
- slows down the aging process

The ingredients also include coconut oil, which boosts the absorption efficiency.

# Curcumin with Piperine

Natural protection and strengthening of the immune system. Maximum amount of curcumin in 1 tablet fortified with piperine.

Benefits of Curcumin with Piperine:

- Dose: Maximum amount of curcumin in 1 tablet
- Convenient use: 1 tablet per day, 1 pack per course
- Ingredients: Curcumin is enhanced with piperine for better absorption
- Raw materials: high quality raw materials from the leading manufacturer in India - the birthplace of turmeric
- Purity: gluten free, GMO free, titanium dioxide free; suitable for vegetarians
- Quality: high quality according to GMP standard

Curcumin with Piperine by Evalar is a natural complex of plant extracts of turmeric and black pepper, which has a tonic and antioxidant effect and helps:

- Increase the body's defenses (strengthening the immune system)
- Improve mobility and flexibility of joints
- Improve the functional state of the liver, biliary tract, gastrointestinal tract
- Mild choleric and hepatoprotective action
- Normalize metabolism in metabolic syndrome
- Preserve youth and slow down the aging process

1 Maximum amount of curcumin (150 mg) corresponds to the upper acceptable level of daily consumption.

# Curcumin, capsules

The first micellar Curcumin in Russia. Curcumin is the principal active substance of the famous Turmeric spice, possessing a powerful anti-inflammatory and antibacterial effect. However, only 5 to 10% of the curcumin contained in the spice are assimilated. For 100% assimilation, curcumin must come in micellar form. CURCUMIN EVALAR capsules contain a micellar form of curcumin, which contributes to:

- liver protection and cleansing, mild choleric effect, reducing the risk of gallstones
- reducing inflammation and easing joint pain
- strengthening immune defenses, protecting the body from viruses, bacteria, and fungi

Today, nutritionists recommend including turmeric in the balanced diet, to reduce the risk of cancer. Since curcumin contributes to the reduction of inflammatory processes, it suppresses the growth of cancer cells and prevents metastasis.

# Dihydroquercetin EVALAR, tablets

Each tablet contains 25 mg of Siberian larch bioflavonoid, which contribute to:

Maintaining normal blood viscosity.

Improving blood circulation.

Achieving normal lipid metabolism.

Improving the functional state of the cardiovascular and broncho-pulmonary systems.

Ingredients: 25 mg of Dihydroquercetin in 1 Tablet.

# Ginkgo biloba Evalar 120 mg

Ginkgo biloba extract, 40 or 120 mg in 1 tablet.

Acting on the blood vessels of the brain, Ginkgo Biloba EVALAR improves the blood supply to the brain, memory and attention, and reduces weather sensitivity.

With Ginkgo Biloba EVALAR, the mind is clear, the memory is excellent!

Ingredients: Ginkgo Biloba Extract, Glycine.

# Green tea extract

Promotes weight loss and accelerates metabolism, with a tonic and antioxidant effect

Biologically active substances of green tea support lipid (fat) and carbohydrate metabolism, collagen synthesis and connective tissue function, ease physical and mental fatigue, strengthen blood vessels and capillaries, improve their elasticity, and have antioxidant effect, protecting our body's cells from the negative effects of free radicals.

# Lycopin

Lycopin contributes to:

- slowing down the aging process and maintaining youthful skin
- maintaining prostate health
- reducing the amount of free radicals
- maintaining good functional condition state of cardiovascular system
- maintaining normal cholesterol levels
- strengthening the walls of blood vessels and capillaries
- maintaining normal blood viscosity

Ingredients: Lycopene.

# Lutein-intensive

Contains the maximum amount of lutein (10 mg or 200% of recommended daily allowance) and zeaxanthin.

Promotes the protection of the retina and intensive support for the vision.

Ingredients: Marigold Extract, Vitamin C, Nicotinic Acid, Zinc Oxide, Vitamins A6, A2, A1, A, Zeaxanthin.

# Selen Forte with vitamin C

For antioxidant protection of all the cells in the body, cardiac and vascular health. The recommended daily allowance of selenium and vitamin C in 1 tablet.

Ingredients: Vitamin C, Selenoxanthene.

# TIME EXPERT, tablets, capsules

Q10 is a special substance contributing to youthful state and renewal of cells. The more of it is present in the body, the younger we look. After 25 years of age, the production of coenzyme Q10 by the body drops sharply. TIME EXPERT tablets and cream based on coenzyme Q10 help us make up for this deficiency. TIME EXPERT in capsules represents an improved formula of the coenzyme Q10, with the anti-oxidant activity enhanced with vitamin E. This composition ensures effective protection from aging.

intake of TIME EXPERT:

Stimulates energy exchange processes on cellular level.

Has antioxidant properties.

Contributes to slowing the process of aging.

Ingredients: Coenzyme Q10, Vitamin E.

# VENOKORSET, capsules, gel

Reduce swelling and sensation of heaviness in the legs<sup>1</sup>. All the products of the VENOKORSET line contain the extract of red grape leaves with a high content of active substances from the leading European manufacturer (Switzerland).

VENOKORSET promotes:

Easing edema and feeling of heaviness in the legs

Strengthening the walls of venous vessels and improvement of venous circulation.

VENOKORSET is highly efficient, providing the comprehensive effect from the outside (gel) and from the inside (capsules).

# Zinc+Vitamin C

Zinc and vitamin C, micronutrients that are necessary for the immune system's active function, provide an easy and effective protection from colds during the entire cold season. The connection between sufficient supply of zinc and vitamin C and the immune system activity is scientifically established. When taking Zinc + Vitamin C EVALAR, you get about 80% of the required daily allowance of zinc in the organic easily digestible form of zinc lactate (20% are contained in a daily diet), and 150% of vitamin C required daily allowance.

Ingredients: Ascorbic Acid, Microcrystalline Cellulose (Excipient), Zinc Lactate, Calcium Stearate of Herbal Origin, and Silicon Dioxide (Anti-Caking Agents)
